ADD A BRIEF OF THE PROJECT AFTER THE 1ST SLIDE SHOW

OVERVIEW

The Art of Island Living

Red Sea Residences represents a new standard in ultra-luxury coastal living, offering the rare opportunity to own a home at one of the world's most extraordinary island environments within The Red Sea destination on the west coast of Saudi Arabia.

Developed and curated by Red Sea Global, these limited-edition residences reflect the company's vision for regenerative tourism, where development enhances natural environments and enriches local communities.

Each home is crafted in partnership with world-renowned architects and hospitality brands to deliver a lifestyle defined by privacy, design excellence, and proximity to nature.

color code isn't matched.
Keep all the key features (4/5 no's) in a single scene.

Masterplan key spots can bumped up like this. 1 key image per location. Like this.

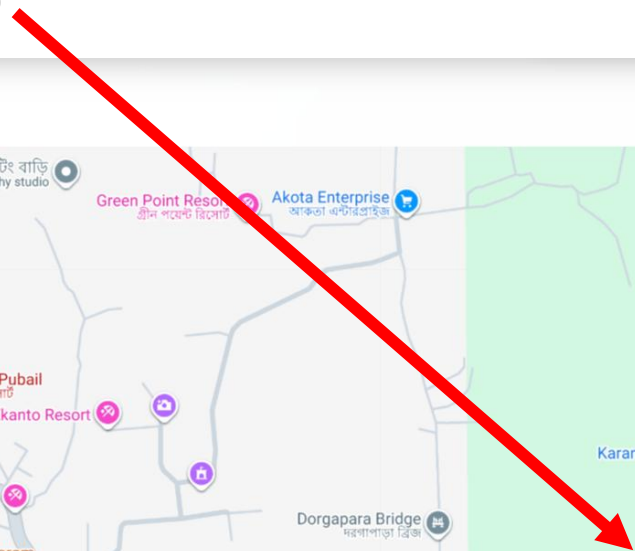

Than add Masterplan. Full Bleed. Remember, This is the Heart of the page. Have to be expressive as much as we can. Do study. See references.

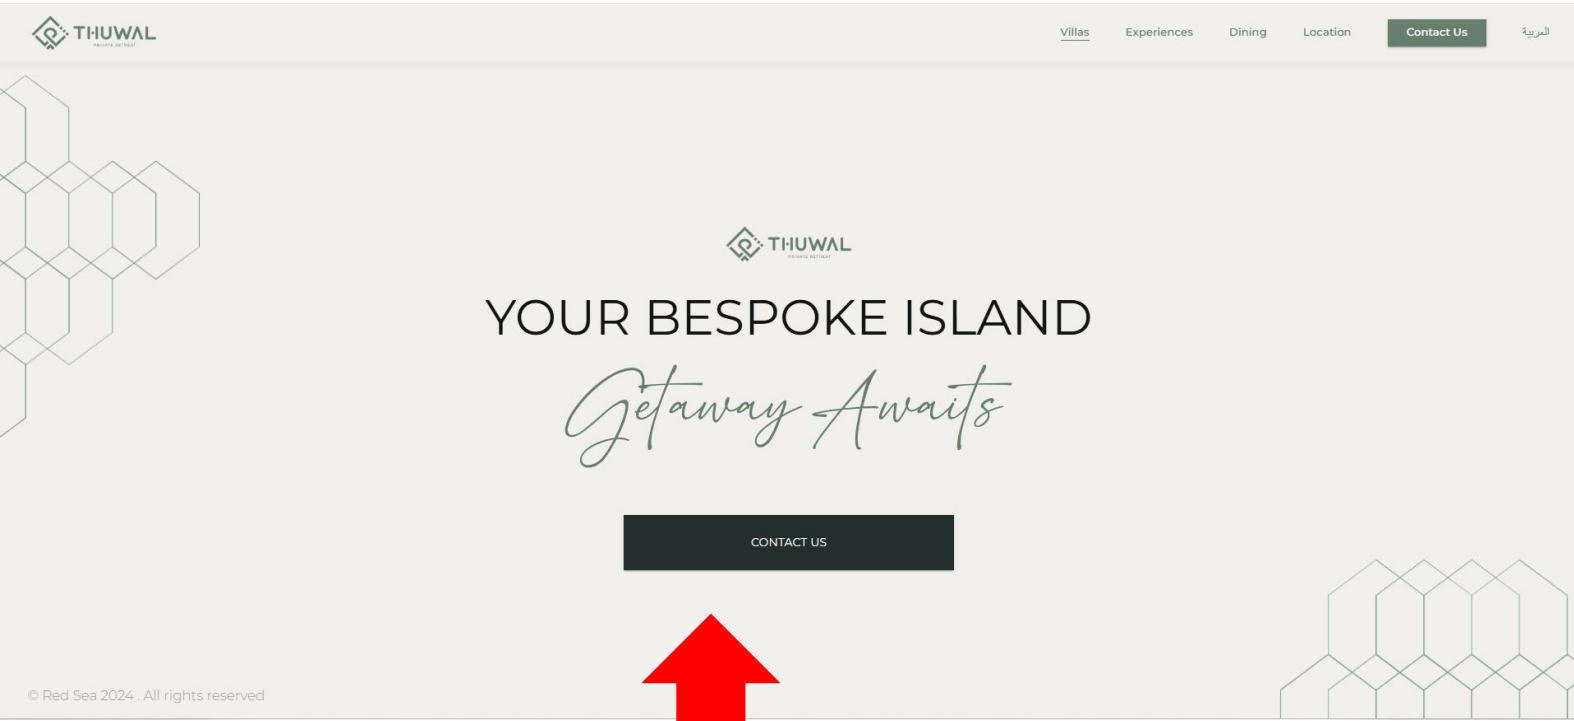

Than add Location Map. Not like this. Have to be in a same color tone.

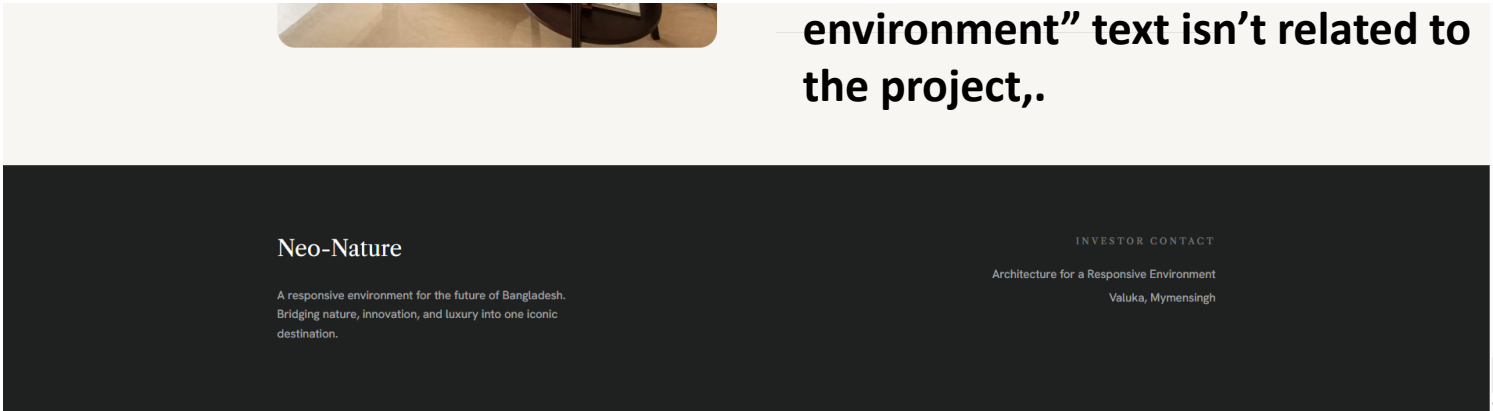

Add bumped icon. Phone number/ Whatsapp

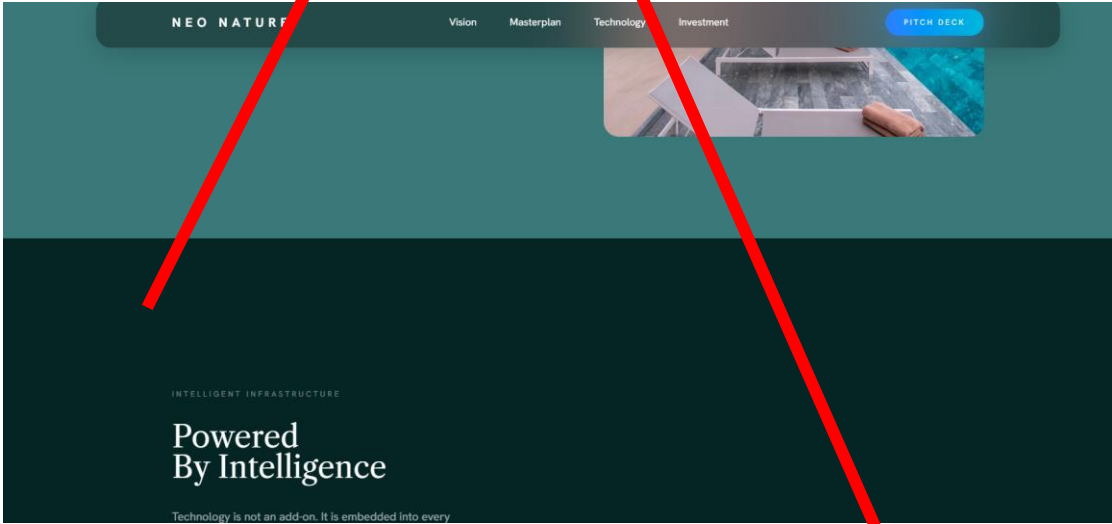

Can try this minimalist approach. Or even better. Explore. All the contact information will be in the contact us tab. Here only Bumped icon.

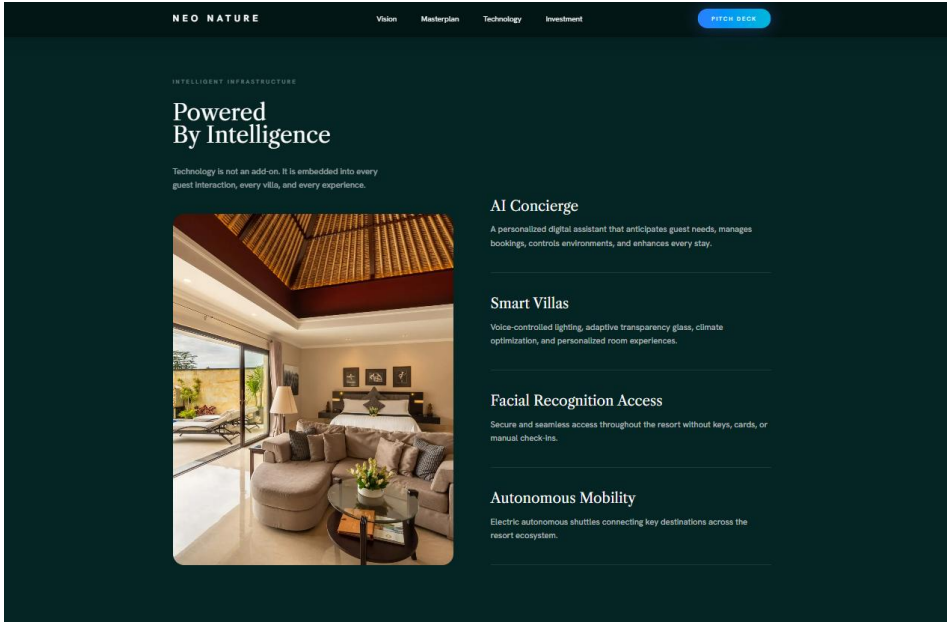

Home page ending is too boring. Conventional.
Remove right side text.
“Architecture for a responsive environment” text isn’t related to the project,.

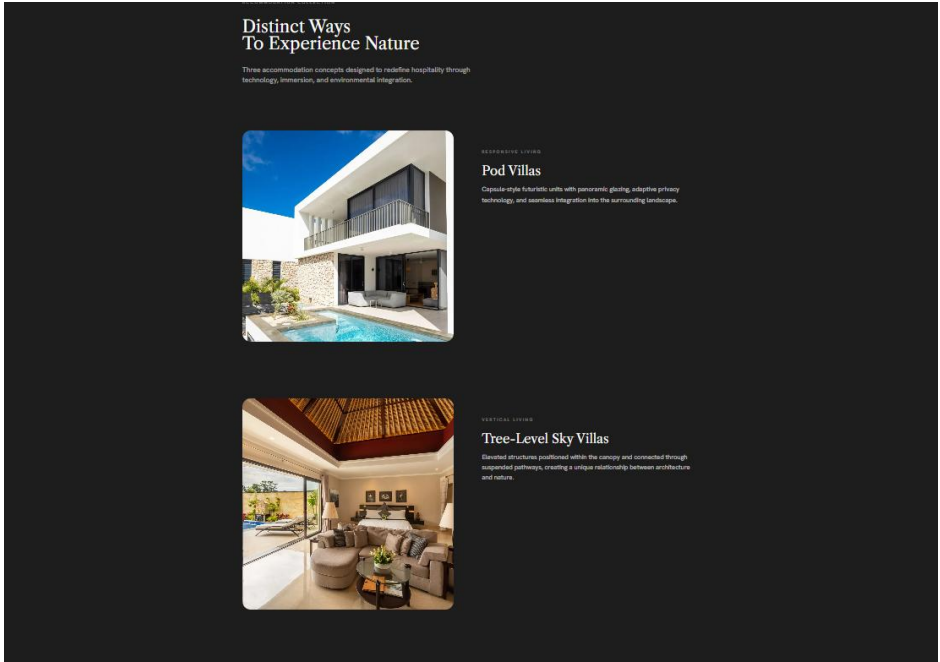

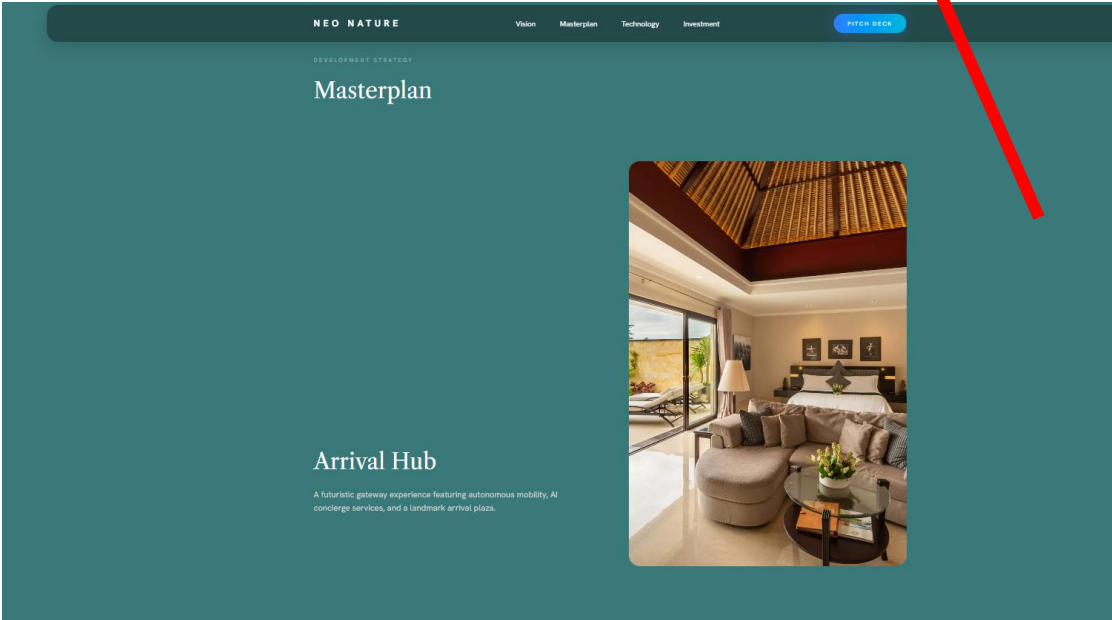

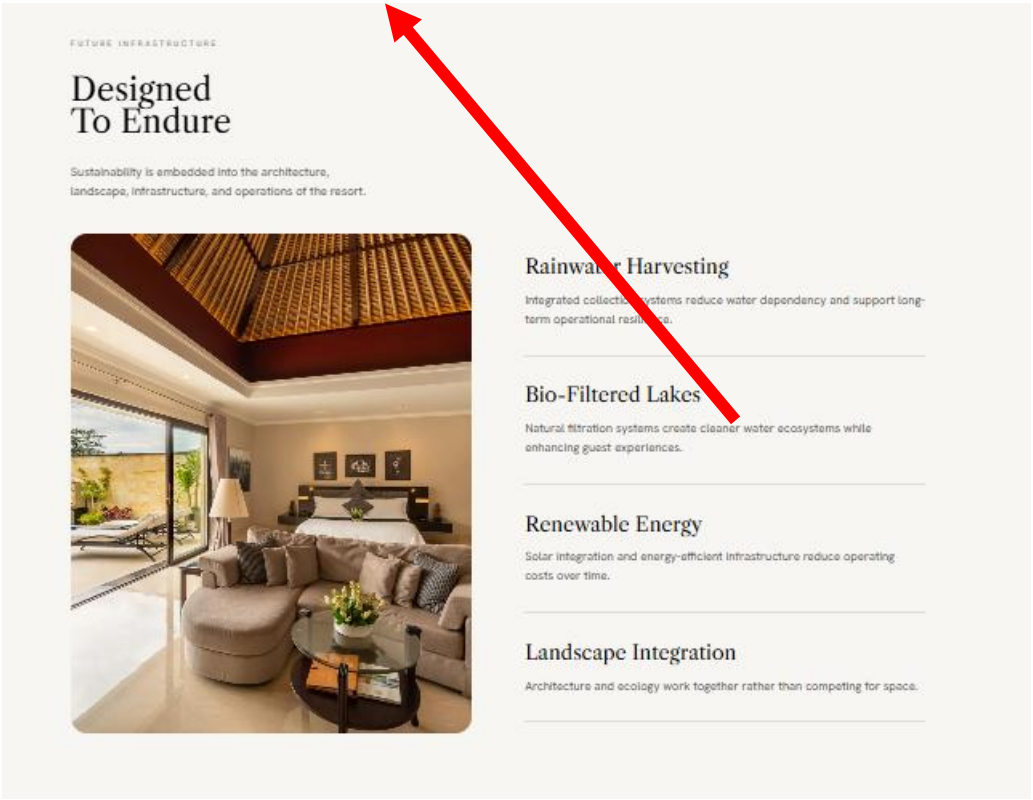

Lots of color. Follow color code. No grey, shaded tone color in any of the website page.
